PRADEEP KUMAR RAJENDRAN

WORKDAY FINANCIALS & INTEGRATION ENGINEERING

Workday Studio • Prism Analytics • Accounting Center • O2C / AR / GL • Enterprise Integrations

Pradeep.r2403@gmail.com | +91 77083 22828 | Chennai, India

PROFESSIONAL SUMMARY

Workday Financials and enterprise integration specialist with 12+ years of enterprise technology experience, including 5+ years focused on Workday Financials, integrations, reporting and analytics. Designs and delivers complex Workday Studio solutions supporting Order-to-Cash (O2C), billing, accounts receivable, general ledger, revenue accounting and month-end financial processing. Hands-on expertise across Workday Studio, Prism Analytics, Accounting Center, EIB, Advanced Reports, RaaS, BIRT, SOAP/REST web services, XML, XSLT, XPath and MVEL. Combines technical delivery with functional-finance understanding, secure bank and third-party integrations, production troubleshooting, reconciliation controls and offshore team leadership.

CORE EXPERTISE

- **Delivery & Operations:** Solution design, UAT, reconciliation, exception handling, logging, production support, DR
- **Secure Connectivity:** PGP encryption, bank integrations, certificates, Salesforce, MuleSoft, HSBC
- **Analytics & Reporting:** Prism Analytics, Accounting Center datasets, Advanced Reports, calculated fields, BIRT
- **Data & Transformation:** XML, XSLT 1.0, XPath, MVEL, SOAP, REST, CSV, payload mapping
- **Financials & O2C:** Billing, Customer Accounts, AR, GL, Revenue Accounting, FDM, period close
- **Workday Integrations:** Studio, EIB, Core Connectors, Workday Web Services, RaaS

PROFESSIONAL EXPERIENCE

Principal Workday Engineer | Apr 2026 – Present

MSBC Group India • ***Workday Financials*** | ***O2C & Integrations***

- Lead technical delivery across O2C processes, including Customer Accounts, billing schedules, usage-based billing rules and BIRT invoice rendering.
- Designed a Workday Studio solution for month-end deferred revenue-to-accrued income reclassification, combining replacement Advanced Reports, five XSLT transformations, SOAP payload generation and auto-reversing journals.
- Implemented multi-company processing across Parameta entities with duplicate-run prevention, exception logging and data-quality controls.
- Built a Studio integration to split quarterly usage invoice lines into monthly billable transactions, using dynamic parameters, CSV output and reconciliation checks.
- Designed and validated Salesforce-to-Workday address verification and custom validation integrations through UAT.
- Resolved seven defects in an HSBC inbound bank-statement integration, addressing WID, XPath, certificate and cross-tenant deployment issues.

Senior Application Developer | Mar 2024 – Feb 2026

UPS Logistics Pvt Ltd, Chennai • ***Offshore Integration Lead*** | ***Team of 7***

- Led Workday Financials O2C support and Salesforce integration through MuleSoft; designed high-volume inbound journal integrations using Workday Web Services.
- Developed Workday Studio integrations supporting revenue reclassification, customer invoicing and HSBC Core Banking.
- Designed inbound and outbound HSBC integrations for bank statements, payment files and treasury data, incorporating PGP encryption and secure file transmission.
- Built complex XSLT/MVEL transformations and introduced centralized error handling, structured logging and monitoring to support reliable production operations.
- Supported period close, audit validation and financial reconciliation reporting.

Senior Software Engineer | Dec 2021 – Mar 2024

CBRE South Asia Pvt Ltd, Chennai • ***Offshore Functional-Technical Lead | Team of 5***

- Delivered Workday integrations across Project Costing, Billing, AR, GL and Payroll, including Studio integrations for customer invoices, payments and revenue accounting.
- Used Workday Prism Analytics to ingest external O2C data and build revenue/AR reconciliation datasets and financial dashboards within Workday security controls.
- Configured Prism Accounting datasets for downstream GL reconciliation and supported disaster-recovery drills, year-end close and quarterly financial processing.
- Enabled automated AR-to-GL reconciliation and strengthened revenue-recognition reporting accuracy.

PROFESSIONAL EXPERIENCE — EARLIER CAREER

Senior Technical Specialist | Jul 2019 – Sep 2021

Thirdware Technical Services (Ford IT Services) • ***PeopleSoft FSCM → Workday transition***

- Supported O2C process alignment during PeopleSoft-to-Workday migration and developed inbound invoice and revenue-journal integrations using Workday Web Services.
- Resolved XML namespace, sequencing and API integration issues; developed Application Engine and SQR reports for tax roll-up and year-end processing.
- Redesigned the APAC invoice model to address regional tax-compliance requirements.

PeopleSoft Consultant | Sep 2018 – Jun 2019

HCL Technologies • ***PeopleSoft FSCM***

- Supported FSCM 9.2 PUM Image 31 upgrade activities, completed Fit-Gap analysis and prepared technical specifications.
- Retrofitted customized objects, resolved audit findings and developed REST-based integrations through Integration Broker.

Senior Software Engineer | Jul 2013 – Feb 2018

DISYS India Pvt Ltd • ***PeopleSoft FSCM & HCM***

- Provided production support across Billing, GL, AR, AP and HCM, including high-priority issue resolution and month-end processing.
- Developed PeopleCode, File Layouts, SQR reports and custom Application Engine programs; managed production escalations.

BIRT FINANCIAL REPORTING

BIRT report architecture and development • Complex invoice and statement layouts • Data-driven report design • Parameters and calculated fields • Grouping, sorting and aggregation • Conditional formatting and business-rule-driven presentation • Financial report validation and reconciliation • Global and multi-company reporting • Production troubleshooting

TECHNOLOGY STACK

Workday: Studio, Financial Management, Accounting Center, Prism Analytics, EIB, Core Connectors, BIRT, Advanced Reports, RaaS, Business Process Framework, Workday Web Services

Integration & Transformation: SOAP, REST, XML, XSLT 1.0, XPath, MVEL, CSV, MuleSoft, Salesforce, PGP encryption

PeopleSoft: PeopleTools 8.53–8.59, FSCM, HCM, Application Engine, PeopleCode, SQR, BI Publisher, Fluid, Integration Broker, COBOL

LEADERSHIP & DELIVERY

- Technical and functional-technical leadership for offshore teams of 5–7, coordinating delivery, issue resolution and stakeholder alignment.
- End-to-end integration lifecycle: requirements analysis, solution design, transformation development, testing/UAT, deployment and production support.
- Financial controls and operations: reconciliation, exception handling, audit support, period-close processing, DR drills and data-quality validation.
